How to choose and plan your new kitchen

Now with DIY Planning Guide

Ready to Fit Kitchens

How to choose and plan your new kitchen
It’s easy with Wickes

At Wickes we believe that buying a new kitchen should be simple, affordable and accessible to all. That’s why we created our Ready to Fit range, a collection of our most popular designs at great prices and quality, that offer a simple and easy way to create and buy a kitchen that is as unique and stylish as you are.

We have everything you need under one roof with our range of kitchens, appliances, sinks & taps, paint, tiles, flooring, lighting, switches & sockets, wireless technology, waste disposal and heating.

We can make your kitchen dreams a reality with a range of helpful services:

The worktop you choose can transform the look of your kitchen. At Wickes, we have an extensive range of colours, styles and materials to choose from, all built to last.

We also have a great range of upstands available to match our worktops. Upstands are hygienic and produce an attractive neat finish between the worktop and the wall.

For a protective, professional finish, invest in trims and waterproof colour-match sealant.

We recommend ColorFill, an effective worktop sealant that also repairs chips and scratches. Available in eight colours.

Explore our wide range of worktop accessories at wickes.co.uk or visit our kitchen showroom in store.

---

Our range of contemporary and traditional taps has been specifically selected to coordinate with our range of sinks. All taps are WRAS approved.

Explore our wide range of taps at wickes.co.uk or visit our kitchen showroom in store.
Appliances are the heart of a kitchen, and at Wickes our Zanussi range of appliances offers a great choice to complement all styles of kitchen from modern to traditional. Zanussi appliances offer performance, reliability and great value for money.

Conventional ovens
Conventional ovens have roof and base heating for consistent top and bottom browning, and variable elements that allow you to simultaneously cook dishes at different temperatures.

Fan ovens
Fan ovens offer faster heating and even cooking, with a rotating rear fan that circulates heat quickly and evenly around the oven at lower temperatures ensuring an economical and effective method of cooking.

All our ovens have an energy efficiency rating of A.

From gas to induction, we offer a selection of contemporary hobs by Zanussi, all guaranteed for a year.*

Electric
Speed of heat is the key with these hobs, the clever design has eliminated dirt traps, so cleaning up couldn’t be easier.

Gas
We know how important peace of mind is to you. That’s why all of our gas hobs have flame safety, meaning that when the flame goes out, the gas cuts off.

Ceramic
A hob that always cleans up well? Easy. This ceramic hob heats up fast and is made from reinforced black glass.

Induction
Plug your induction hob into any domestic plug socket. Induction hobs use clever technology to heat the food and not the hob – the fastest and most responsive hob. These hobs require magnetic pots and pans.

Explore our wide range of hob brands at wickes.co.uk or visit our kitchen showroom in store.

Hoods

Cooker hoods quickly clear kitchens of strong cooking smells. They can be a prominent and attractive kitchen feature or can be discreetly integrated. Zanussi cooker hoods are available in three types: traditional, integrated and chimney.

**Traditional Cooker Hoods**
Traditional cooker hoods offer excellent value for money and are fitted under bridging wall units.

**Integrated Cooker Hoods**
Integrated cooker hoods fit discreetly behind a pull out appliance door whilst keeping the lines of your kitchen.

**Chimney Hoods**
Stainless steel chimney hoods are used as a stylish focal point in the kitchen and offer exceptional performance.

Storage & Water Solutions

We offer an all-encompassing kitchen accessory range to let you tailor the design of your kitchen to suit your lifestyle. From smart storage solutions to innovative design features, there really is something for everyone.

Storage Solutions

Under Sink Pull-Out
- 2 Tier wire storage
- 300mm wide
- Fits all sizes of base unit
139072

Nuvola Pull-Out
- For easy access to corner cupboards
- Fits a 1000mm base unit
- Left- and right-hand options available
139065 Left-hand
139066 Right-hand

Revolving Corner Storage Tray
- For easy access to corner cupboards
- Fits a 1000mm base unit
- Can be fitted to bottom or top shelf
139067

Larder Pull-Out
- Easy Access pull-out larder unit to fit 600mm unit
- Telescopic fittings to allow height adjustments
139069

Soft Close Buffers for Kitchens – 5Pk
- The ‘Soft Close’ mechanism gently slows the pace of closing doors and softly rests them back into position for a quality feel, reducing the chance of trapped fingers and movement of contents.
145425

Double Bin
- Pullout Double Bin with lids
- Fits into a 400mm base unit
139068

Door Mounted Bin
- Attaches to back of a door
139073

Cutlery Insert
- To fit 500mm drawer unit
139074

Adjustable Plinth Feet
- Black
- Pack of 4
103564

Carousel 2 Tier White
- 320mm
222276

Softclose Draw Upgrade
122345

Replaceable Cartridges (far right)
- To be used with Water Filter Kit

^Kitchen showroom range does have to be ordered and will take a little longer to arrive.
Luxury Extras

Wireless worktop charger
Clutter-free wireless charging for smartphones and other devices. Simply drop a compatible device onto the charger to enable wireless charging.

Innovative Appliances
With the new ComboHob technology from AEG you are no longer limited to where you place your hob in your kitchen. The hob already has an integrated hood which makes it easier to plan your dream kitchen island for cooking.

Instant boiling water taps
Enjoy hot, cold and boiling water in an instant with a 3-in-1 tap. This means no more waiting for water to heat up, having the right amount of boiling water every time, plus one less thing on your worktop.

Luxurious worktop surfaces
We have a worktop to suit every style and budget, from durable, long-lasting laminates to the timeless beauty of granite. Upgrade to solid surfaces for a sophisticated look.

The showroom range does have to be ordered and will take a little longer to arrive, but trust us it will be worth the wait!

Please speak our Design Consultants located in the showroom area of our stores to find out more.
Finishing Touches

Get everything you need to complete your project in one go with our wide range of stunning paint, tiles and flooring at affordable prices.

Paint
Like the idea of wiping your wall clean? Our wide range of kitchen paints are highly resistant to moisture and ideal for spaces prone to grease, stains and other marks.

Tiles
Whether you just want to refresh a room or change it completely, our wall and floor tiles are designed to inspire.

Flooring
A beautiful new floor can transform a room. Traditional to modern, find the floor to suit your kitchen and budget with us.

Explore our wide range of paint, tiles and flooring at wickes.co.uk or visit a Wickes store
4 simple steps to a new kitchen

Use this guide to measure, plan and know exactly what you need to create your dream kitchen.

Step 1
Measure and draw up the space

Step 2
Plan what goes where

Step 3
Buy online or in store

Step 4
Install your new kitchen

Ready to Fit
Kitchen Planning Guide
with pull-out graph paper
Step 1
Measure and draw up the space

All your planning - and therefore the success of your new kitchen - is based on your measurements. Here’s how to get them right. There’s graph paper and a checklist at the back of this brochure.

Start here

1. Measure from the floor to the ceiling (see image A)
2. Then also measure the distance from wall to wall (see image A)
3. Measure from the corner to the door(s) frames (see image A)
4. Now measure each window and door from the frame, plus their distance from the floor, the ceiling, and the corner of the room (see image B)
5. Make a note of everything that sticks out into the room, such as switches and pipes. There’s a checklist on the graph paper
6. Finally, note what can and can’t be moved, and what you’d like to stay

Because walls aren’t always completely square, especially in older houses, it’s a good idea to take multiple measurements for each surface.

Checklist
Have you made a note of where these are?
- Radiators
- Pipes
- Vents
- Switches
- Plug points
- Power outlets
- Drains
- Water and gas supplies

You should draw a front-on and bird’s eye view of each wall.

Take your measurements in millimetres (mm) because it’s what manufacturers use.
Step 2
Plan what goes where

Now the dream can start becoming reality. There’s lots to think about, including what you’d like to keep and what you want to replace. Here are our practical tips. If you feel you need some advice at any point, our design consultants will be happy to work with you on drawing up a perfect plan. Just ask in store. It’s free.

The Working Zones

Plan your kitchen around the idea of a working triangle of three zones, which we describe below. This is about having what you use the most in easy relationship to each other. Each zone should ideally be equal in distance from each other, and the things you use least can go furthest out of the triangle.

- **Cooking Zone**
  Includes the oven, hob, microwave and where you cook

  It’s handy to have the cooking zone close to the sink so you’re not carrying hot things far. Allow worktop space for food preparation and utensils.

- **Washing Zone**
  The sink and dishwasher

  Plan everything that needs plumbing next to each other and/or along the same wall. Keep the fridge close to the sink for washing fruit and veg. Also, keeping the worktop above the dishwasher free of appliances leaves space for stacking and unloading dishes.

- **Food Storage Zone**
  Includes the fridge, freezer and dry storage

  Consider the amount of storage you’ll need, including the size of the fridge and freezer. A worktop near the fridge is really handy for unpacking the shopping, and for cooking.

- **Improve accessibility**
  with pull-out cabinets, carousels and corner options, including floor and ceiling larder cupboards.

- **Think about your working triangle**

  - **Galley kitchen**
  - **U-shaped kitchen**
  - **L-shaped kitchen**
  - **Open plan kitchen**

- **Always start planning from the corner outwards. A closed corner base unit needs to be stepped out 125mm and a closed corner wall unit stepped out 25mm.**
The best place for preparing food? The work surface between the hob and the sink.

Make sure the distance between opposite rows of cabinets is wide enough that both doors can open fully at the same time. Where this gap cannot be achieved, consider using wall units instead of base units as they’re shallower. Allow for 800mm minimum walkthrough clearance.

Finding things in your kitchen is easy when groceries and utensils are in fully extendable drawers and a pull-out pantry.

Most people like to have the sink under the window. Check that yours does not open inwards, as it could get blocked by the tap.

A sink against a wall or at the end of a row of cabinets limits the amount of space you have to cook, prep, and hold dirty pots.

Put the dishwasher close to the sink and draining board to minimise spills when unloading and loading.

An oven next to the wall limits your workspace and puts your walls at risk from heat and stains.

Keep your pots, pans and utensils near the oven so that they’re within easy reach.

Put the dishwasher close to the sink and draining board to minimise spills when unloading and loading.

A sink against a wall or at the end of a row of cabinets limits the amount of space you have to cook, prep, and hold dirty pots.

Most people like to have the sink under the window. Check that yours does not open inwards, as it could get blocked by the tap.

Once you’re happy with your plan, you’re ready to pick your items. Find your favourite range on the next page and a list of what you need.
## Your shopping list

Pick the right units and other key items. Remember we can deliver everything to you, or you can pick up from a store yourself.

### Notes

- All our units come with:
  - Adjustable legs for uneven floors
  - Cam and dowel fitting for easy assembly
  - Service void at the back of base units for plumbing and pipework
Step 3
Buy online or in store
When you're happy with your design, you can either order online or visit your local Wickes store to make your purchase.

- **Pick up in store**
  - Have your kitchen with your entire plan. If you need assistance, our team will help with finding everything.

- **Click & Collect**
  - Order everything online and collect in store the same day.

How & when?
- **Order online**
  - Click & Collect will be ready for you at a convenient time.
- **Place your order over the phone**
  - Call 0330 123 4123

Step 4
Install your new kitchen
When your kitchen arrives, it’s time to place your order. You can order everything online and collect in store the same day.

- **Click & Collect**
  - Order everything online and collect in store the same day.

Our flat-packed kitchens are designed to be easily fitted by you and we can help.

- **2-year workmanship guarantee**
- **Installing your new one**
- **Remove and dispose of your old kitchen**
- **A pre-installation survey**

Our market-leading service includes:
- **Professional advice**
  - We'd be very happy to give you a quote for installing your kitchen for you.
- **Installation support**
  - How to fit a kitchen worktop, sink & tap
  - How to install base & wall kitchen cabinets

Rather we install it for you?
- **Building Services**
  - We can do the work for you.

How To Guides
- **How to fit a kitchen**
  - How to install base & wall kitchen cabinets
- **How to fit a kitchen worktop, sink & tap**

Call 0330 123 4123 for a quote or ask in store
